

*Illicium verum*

A detailed botanical illustration. The central figure is a branch with several large, green, lanceolate leaves and a cluster of small, white, star-shaped flowers. Surrounding this central image are various detailed anatomical drawings of the plant's parts, labeled with letters: 'A' for the main branch, 'B' for a single fruit (a star-shaped cluster of eight segments), 'C' for a single segment, 'D' for a single flower, 'E' for a single petal, 'F' for a single stamen, 'G' for a single pistil, 'H' for a single seed, and 'I' for a single fruit segment. The illustrations are rendered in a classic scientific style with fine lines and shading.
